Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the specification, page 1, before line 1,

"CONTINUING DATA

This application is a 371 of PCT/IB2005/000755, filed March 23, 2005." has been inserted.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: No reference was found anticipating or a combination of references found making obvious the combination of elements of claim 1 including a radiation source mounted on the load board adjacent to the test socket wherein a radiation pathway is provided in the plunger, the pathway directing radiation emitted by the radiation source through the plunger to the radiation sensing element of the packaged integrated circuit or the combination of steps of claim 13 including directing radiation from a radiation source mounted on the load board adjacent to the test socket through a radiation pathway provided in the plunger, thereby exposing the radiation sensing element to a suitable radiation signal emitted by the radiation emitting means.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner's Comments

Claims 1-16 are allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wilsher et al (6,985,219) and Brophy et al (7,129,722) are cited to show prior art testing apparatus and methods for a radiation sensing integrated circuit having a load board and a test socket.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ERNEST F. KARLSEN whose telephone number is (571)272-1961. The examiner can normally be reached on 8 hrs. Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ha Nguyen can be reached on 571-272-1678. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
